

The 29<sup>th</sup> International Trade Fair for  
Construction Machinery, Building Material Machines,  
Mining Machines, Constructions Vehicles &  
Construction Equipment

April 19 – 25, 2010 | Munich, Germany

### About bauma

**bauma** is the world's largest and most important trade fair to the building industry.

Held every 2 years, **bauma** is a hub for international business and an important venue for gathering information and establishing contacts, where building and construction experts from all over the world can inform themselves about state-of-the-art technology.

### Registration

Exhibiting with Pennsylvania enables small-to-medium sized companies to have a presence at this prominent trade show – without the high cost.

#### For a registration fee of \$2,500 your company will receive:

- Exhibition space within the Pennsylvania Pavilion
- Listing of your company in the show catalogue
- Assistance with booth graphics, including an enlarged image of your company name, logo and product(s), mounted in your booth.  
*Company provides graphics*
- Exhibitor passes to the show
- Experienced international trade specialists to assist you on-the-ground.

### Contact

Space within the Pennsylvania Pavilion is limited and will be filled on a first-come, first-served basis. For more information or to register your company, contact the office nearest you:

### Why bauma?

In 2007, over 3,000 exhibitors from 49 countries used **bauma** as a platform to introduce their products to over 155,000 international visitors from 191 countries around the world. This year's show promises to have even more exhibitors and visitors.

#### At bauma 2010, you will have the opportunity to meet the clientele you are looking for.

Products on display at **bauma** include, but are not limited to:

- Construction vehicles & machine
- Construction equipment, tools and special systems
- Lifting appliances & conveying equipment
- Handling and processing concrete and mortar equipment
- Mining machines for extraction of raw materials
- Mineral processing equipment
- Manufacture of cement, lime & gypsum compounds for building materials
- Machines for producing concrete & concrete products
- Transmission engineering, fluid technology and power generation units
